

## FEATURES AND SPECIFICATIONS

# Manual Wire Stripper

**63817-0000**

**Replaces WS-303/19294-0012**

**WS-505/19294-0014**

This cutting and stripping tool has easily interchangeable multiple stripping cassettes that enable precision stripping of a wide range of insulations from PVC to PTFE with just one tool. While the tool is self-adjusting, 90% of wires can be stripped without adjusting the tool. Lightweight and ergonomically designed, this tool is qualified for high volume production and portable field usage.

### Features and Benefits

- Easily interchangeable stripping cassettes enable the use of one tool for multiple wires
- Provides the widest stripping capacity of any tool of its type in the industry, which will reduce overall tooling investments and provide production flexibility
- Designed with fine adjustability to ensure that thin insulations can be stripped without damage to conductors
- Replacement stripping cassettes and cutting blades are available, which extends the life of the tool and reduces tool replacement investments

### Specifications

Crimp Cycles: 150,000 plus on handle  
Stripping dim: 1.00mm (.040") max.  
Cable Types: Conduit wire, flex power cable, equipment wire and flat phone cable  
Wire Range: 10.00 to 0.05 mm<sup>2</sup> (8 to 34 AWG)

### Mechanical

Dimensions:  
Height – 123.00mm (4.80")  
Length – 191.00mm (7.50")  
Weight – 136.00g (4.80oz)

## ORDERING INFORMATION

Order No.	Description	Notes
63817-0000	Complete Manual Wire Stripping Tool with Straight Blade	See Note 1
63817-0070	Straight Blade Replacement Cassette 8-34 AWG	Used with PVC Insulation
63817-0071	"V" Blade Replacement Cassette 10-32 AWG	Used with Teflon Insulation
63817-0072	Straight Blade Replacement Cassette 5-10 AWG	Used with PVC Insulation

Note 1: This tool (63817-0000) comes complete with the straight blade. To use the "V" blade, order the complete tool with straight blade (63817-0000) plus the "V" blade (63817-0071) and replace the stripping cassette.
