Application:

The first of its kind, the Dialight DuroSite™ LED High Bay luminaire was designed specifically to replace conventional lighting in a wide variety of industrial applications, both indoor and outdoor. Its low profile, light weight design and versatile mounting options make it ideal for many applications such as for many applications such as high bay lighting, warehouse, factories, cold stores, restricted access areas, service areas and other applications with mounting heights greater than 4 meters.

All of Dialight's long life LED luminaires are designed to meet the most demanding specification criteria while offering maximum energy savings, reduced maintenance costs, and a superior quality of light. Hazardous area versions are also available.
