

**162...180**

**862...180**

- High density DIP headers and strips for devices featuring .070" lead spacing.
- Series 162 DIP headers use MM #6218 pins. See page 175 for details.
- Series 862 strip headers use MM #6218 pins. See page 175 for details.
- Insulators are high temperature thermoplastic.

| Total number of pins                                                                |  |       |      | Quantity per tube | Ordering Information                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |         |             |          |  |
