

M62362P/FP

1280 Resolution 3ch Multiplying D/A Converter

REJ03D0873-0201

Rev.2.01

Dec 27, 2007

Description

The M62362P is an integrated circuit semiconductor of CMOS structured with 3 channels of built-in 1280 step resolution (equivalent 10.3-bit) multiplication type D/A converters.

The 3-wire serial interface method and it is able to cascading serial use with D_O terminal.

The device is suited for use in high accuracy automatic adjustment combination with microcomputer.

Features

- Digital data transfer method: 3-wire serial data transfer method
- High resolution
Resolution is more over 10-bit and error is less than ± 1 LSB
- Capable of 4 quadrant multiplication
- Short setting time
- With reset terminal

Recommended Operating Condition

Digital section supply voltage: $V_{DD} = 5\text{ V} \pm 10\%$

Application

Signal gain control of display-monitor or CTV. Conversion from digital control data to analog control data for home-use and industrial equipment.

Automatic adjustment by combination with EEPROM and microcomputer. (Replacement of conventional half-fixed)

Block Diagram

Pin Arrangement

Pin Description

Pin No.	Pin Name	Function
9 (11)	DI	Serial data input terminal
5	D _O	Serial data output terminal
8 (10)	CLK	Serial clock input terminal
10 (12)	BS	When BS terminal level is "H" latch circuit data is load
11 (13)	$\overline{\text{RESET}}$	When $\overline{\text{RESET}}$ terminal level is "L", all D/A output terminal became "L"
13 (15)	V _{O1}	1280 resolution D/A output
2	V _{O2}	
4	V _{O3}	
7	V _{DD}	Power supply terminal
6	GND	GND terminal
1	V _{IN2}	D/A converter input terminal
3	V _{IN3}	
12 (14)	V _{IN1}	
14 (16)	V _{DAref}	D/A converter reference voltage input terminal

Note: () : M62362FP

Electrical Characteristics

<Digital Part>

(V_{DD} , $V_{IN} = +5\text{ V} \pm 10\%$, $V_{DD} \geq V_{IN}$, $GND = V_{DAREF} = 0\text{ V}$, $T_a = -20\text{ to }+85^\circ\text{C}$, unless otherwise noted.)

Item	Symbol	Limits			Unit	Conditions
		Min	Typ	Max		
Supply voltage	V_{DD}	4.5	5.0	5.5	V	
Input leak current	I_{ILK}	-10	—	10	μA	$V_{IN} = 0\text{ to }V_{DD}$
Input low voltage	V_{IL}	—	—	$0.2 V_{DD}$	V	
Input high voltage	V_{IH}	$0.8 V_{DD}$	—	—	V	
Output low voltage	V_{OL}	—	—	0.4	V	$I_{OL} = 2.5\text{ mA}$
Output high voltage	V_{OH}	$V_{DD} - 0.4$	—	—	V	$I_{OH} = -400\text{ }\mu\text{A}$

<Analog Part>

(V_{DD} , $V_{IN} = +5\text{ V} \pm 10\%$, $V_{DD} \geq V_{IN}$, $GND = V_{DAREF} = 0\text{ V}$, $T_a = -20\text{ to }+85^\circ\text{C}$, unless otherwise noted.)

Item	Symbol	Limits			Unit	Conditions
		Min	Typ	Max		
Input voltage	V_{IN}	0	—	V_{DD}	V	
Output voltage	V_O	0	—	V_{DD}	V	$V_{IN} = 0\text{ to }V_{DD}$
Input current	I_{IN}	—	0.75	1.5	mA	$V_{IN} = 5\text{ V}$, $V_{DAREF} = 0\text{ V}$ Proportional to $(V_{IN} - V_{DAREF})$
D/A reference source current	I_{DAREF}	-4.5	-2.25	—	mA	$V_{IN1} = V_{IN2} = V_{IN3} = 5\text{ V}$, $V_{DAREF} = 0\text{ V}$ Proportional to $(V_{IN} - V_{DAREF})$
D/A output sink or source current	I_O	-1.0	—	1.0	$\mu\text{A}/\text{LSB}$	
Output impedance	R_O	—	1.8	3.6	$\text{k}\Omega$	Constant for all D/A output mode
Resolution	RES	—	1280	—	STEP	
Accuracy	Differential nonlinearity	DNL	-1	1	LSB	
	Nonlinearity	NL	-0.6	0.6	%FS	
	Nonlinearity for channels	ΔNL	-0.4	0.4	%FS	

Note: Polarity of current, (+) is sink into IC and (-) is source from IC.

AC Characteristics

 $(V_{DD}, V_{IN} = +5\text{ V} \pm 10\%, V_{DD} \geq V_{IN}, GND = V_{D\text{Aref}} = 0\text{ V}, T_a = -20\text{ to }+85^\circ\text{C})$

Item	Symbol	Limits			Unit	Conditions
		Min	Typ	Max		
Clock "L" pulse width	t_{CKL}	200	—	—	ns	
Clock "H" pulse width	t_{CKH}	200	—	—	ns	
Clock rise time	t_{CR}	—	—	200	ns	
Clock fall time	t_{CF}	—	—	200	ns	
Data setup time	t_{DCH}	60	—	—	ns	
Data hold time	t_{CHD}	100	—	—	ns	
LD setup time	t_{CHL}	200	—	—	ns	
LD hold time	t_{LDC}	100	—	—	ns	
LD "H" pulse width	t_{LDH}	100	—	—	ns	
Data output delay time	t_{DO}	70	—	350	ns	$C_L \leq 100\text{ pF}$
Data output setting time	t_{LDD}	—	—	20	μs	No load
Input/output response time		—	—	5		$f = 10\text{ kHz}$

M62362P Output Fall Characteristics (Setting Time)

Precaution for Use

M62362 have 5 terminals these are input free voltage at use. (V_{DD} , V_{IN1} , V_{IN2} , V_{IN3} , V_{DAref}) If ripple and spike is input to these terminals, accuracy of conversion is down. So, when use this device, please connect capacitor among to each terminals and GND for stable operation.

Plastic 14pin 300mil DIP

Notes:

1. This document is provided for reference purposes only so that Renesas customers may select the appropriate Renesas products for their use. Renesas neither makes warranties or representations with respect to the accuracy or completeness of the information contained in this document nor grants any license to any intellectual property rights or any other rights of Renesas or any third party with respect to the information in this document.
2. Renesas shall have no liability for damages or infringement of any intellectual property or other rights arising out of the use of any information in this document, including, but not limited to, product data, diagrams, charts, programs, algorithms, and application circuit examples.
3. You should not use the products or the technology described in this document for the purpose of military applications such as the development of weapons of mass destruction or for the purpose of any other military use. When exporting the products or technology described herein, you should follow the applicable export control laws and regulations, and procedures required by such laws and regulations.
4. All information included in this document such as product data, diagrams, charts, programs, algorithms, and application circuit examples, is current as of the date this document is issued. Such information, however, is subject to change without any prior notice. Before purchasing or using any Renesas products listed in this document, please confirm the latest product information with a Renesas sales office. Also, please pay regular and careful attention to additional and different information to be disclosed by Renesas such as that disclosed through our website. (<http://www.renesas.com>)
5. Renesas has used reasonable care in compiling the information included in this document, but Renesas assumes no liability whatsoever for any damages incurred as a result of errors or omissions in the information included in this document.
6. When using or otherwise relying on the information in this document, you should evaluate the information in light of the total system before deciding about the applicability of such information to the intended application. Renesas makes no representations, warranties or guarantees regarding the suitability of its products for any particular application and specifically disclaims any liability arising out of the application and use of the information in this document or Renesas products.
7. With the exception of products specified by Renesas as suitable for automobile applications, Renesas products are not designed, manufactured or tested for applications or otherwise in systems the failure or malfunction of which may cause a direct threat to human life or create a risk of human injury or which require especially high quality and reliability such as safety systems, or equipment or systems for transportation and traffic, healthcare, combustion control, aerospace and aeronautics, nuclear power, or undersea communication transmission. If you are considering the use of our products for such purposes, please contact a Renesas sales office beforehand. Renesas shall have no liability for damages arising out of the uses set forth above.
8. Notwithstanding the preceding paragraph, you should not use Renesas products for the purposes listed below:
 - (1) artificial life support devices or systems
 - (2) surgical implantations
 - (3) healthcare intervention (e.g., excision, administration of medication, etc.)
 - (4) any other purposes that pose a direct threat to human lifeRenesas shall have no liability for damages arising out of the uses set forth in the above and purchasers who elect to use Renesas products in any of the foregoing applications shall indemnify and hold harmless Renesas Technology Corp., its affiliated companies and their officers, directors, and employees against any and all damages arising out of such applications.
9. You should use the products described herein within the range specified by Renesas, especially with respect to the maximum rating, operating supply voltage range, movement power voltage range, heat radiation characteristics, installation and other product characteristics. Renesas shall have no liability for malfunctions or damages arising out of the use of Renesas products beyond such specified ranges.
10. Although Renesas endeavors to improve the quality and reliability of its products, IC products have specific characteristics such as the occurrence of failure at a certain rate and malfunctions under certain use conditions. Please be sure to implement safety measures to guard against the possibility of physical injury, and injury or damage caused by fire in the event of the failure of a Renesas product, such as safety design for hardware and software including but not limited to redundancy, fire control and malfunction prevention, appropriate treatment for aging degradation or any other applicable measures. Among others, since the evaluation of microcomputer software alone is very difficult, please evaluate the safety of the final products or system manufactured by you.
11. In case Renesas products listed in this document are detached from the products to which the Renesas products are attached or affixed, the risk of accident such as swallowing by infants and small children is very high. You should implement safety measures so that Renesas products may not be easily detached from your products. Renesas shall have no liability for damages arising out of such detachment.
12. This document may not be reproduced or duplicated, in any form, in whole or in part, without prior written approval from Renesas.
13. Please contact a Renesas sales office if you have any questions regarding the information contained in this document, Renesas semiconductor products, or if you have any other inquiries.
