## Vishay High Power Products

# HEXFRED<sup>®</sup> Ultrafast Soft Recovery Diode, 4 A

| PRODUCT SUMMARY                |        |  |  |  |
|--------------------------------|--------|--|--|--|
| V <sub>R</sub>                 | 600 V  |  |  |  |
| V <sub>F</sub> at 4 A at 25 °C | 1.8 V  |  |  |  |
| I <sub>F(AV)</sub>             | 4 A    |  |  |  |
| t <sub>rr</sub> (typical)      | 17 ns  |  |  |  |
| T <sub>J</sub> (maximum)       | 150 °C |  |  |  |

## FEATURES

- Ultrafast recovery time
- Ultrasoft recovery
- Very low I<sub>RRM</sub>
- Very low Q<sub>rr</sub>
- Guaranteed avalanche
- Specified at operating temperature
- Lead (Pb)-free
- Designed and qualified for Q101 level

#### BENEFITS

- Reduced RFI and EMI
- · Reduced power loss in diode and switching transistor
- Higher frequency operation
- Reduced snubbing
- · Reduced parts count

#### **DESCRIPTION/APPLICATIONS**

These diodes are optimized to reduce losses and EMI/RFI in high frequency power conditioning systems. The softness of the recovery eliminates the need for a snubber in most applications. These devices are ideally suited for freewheeling, flyback, power converters, motor drives, and other applications where high speed and reduced switching losses are design requirements.

| ABSOLUTE MAXIMUM RATINGS                    |                                   |                         |             |       |  |
|---|-----------------------------------|-------------------------|-------------|-------|--|
| PARAMETER                                   | SYMBOL                            | TEST CONDITIONS         | VALUES      | UNITS |  |
| Cathode to anode voltage                    | V <sub>RRM</sub>                  |                         | 600         | V     |  |
| Maximum continuous forward current          | I <sub>F(AV)</sub>                | T <sub>C</sub> = 100 °C | 4           |       |  |
