

BB-035

Baseboard
for TCMC-035

MAIN CHARACTERISTICS

INFO The baseboard BB-035 allows to build a ready to use stepper driver unit using the TCMCM-035 driver module. All important signal and power lines are accessible via screw terminals, the step and direction inputs are equipped with opto couplers. The integrated switch-mode regulator provides the required 5V supply voltage for the TCMCM-035.

|-----------------|---|
| ELECTRICAL DATA | <ul style="list-style-type: none"> • 15V to 50V DC supply voltage |
| INTERFACE | <ul style="list-style-type: none"> • optically decoupled step/direction input (differential / optical) • SPI and analog inputs accessible via additional connector |
| FEATURES | <ul style="list-style-type: none"> • 1 slot for TCMC-035 power driver • integrated 5V power supply • protection: overvoltage suppressor and inverse polarity |
| OTHER | <ul style="list-style-type: none"> • RoHS compliant • size: 90 x 60 mm², 60 mm height |

ORDER CODE	DESCRIPTION
BB-035	Baseboard for TCM-035
