

Type: ACL25

Product Description

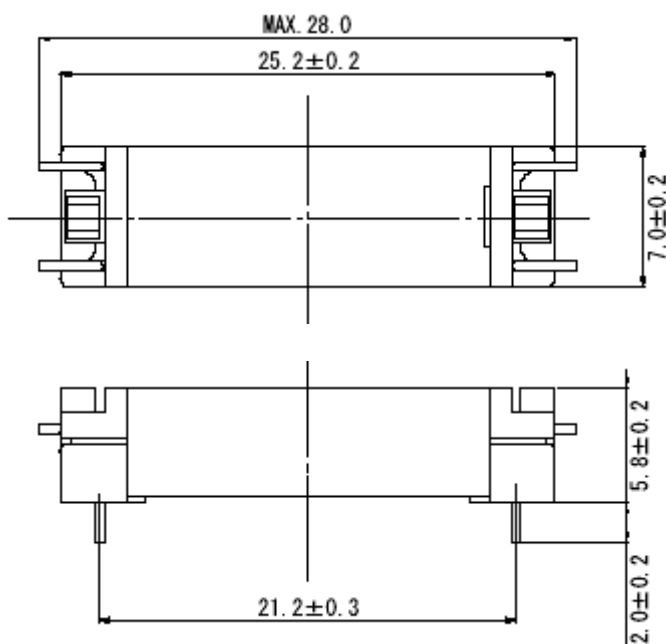

- 28.0 × 7.2mm Max.(L × W),6.0mm Max. Height.
- Operating frequency: 40kHz,60kHz,77.5kHz.

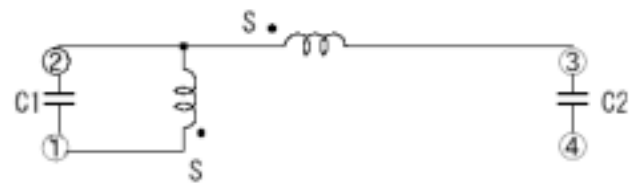

Feature

- Radio control clock antenna with capacitor.
- Ideally used in Radio control clock receiver,car, highway, railway, and hospital etc.
- RoHS Compliance.

Dimensions (mm)

Schematics(Bottom)

“S” is winding start.

Specification

Part No.	Spec No.	Inductance	Tuning Frequency	Impedance
ACL-25-40/60-722	13Y-2552-102	8.9mH	40/60kHz	100k/200k Ω
