

Dialight

79 SERIES

LED License Plate Light

FEATURES / BENEFITS

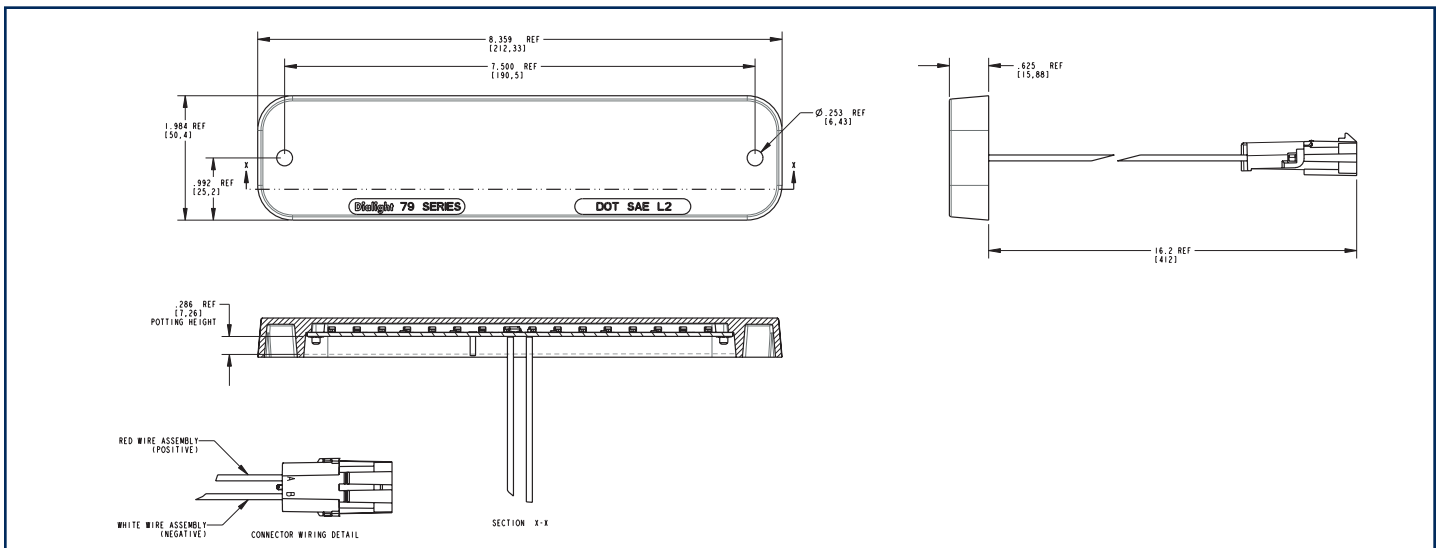

- ▲ Available in cool white
- ▲ Thin line design
- ▲ High vibration resistance
- ▲ Integral wiring
- ▲ Polycarbonate lens
- ▲ Rugged potted construction
- ▲ Foam sealing gasket available
- ▲ Reduced current draw

APPLICATION

The 79 Series LED license plate light was developed by Dialight for heavy-duty applications where high reliability and reduced maintenance are a major concern. These lamps were designed to conform to all of the FMVSS license plate lighting requirements for both existing and new vehicle designs.

The 79 Series license plate light uses Dialight's unique potted construction to provide a superior sealing against moisture. The use of integral wiring results in fewer interconnections between the lamp and the vehicle harness.

SPECIFICATIONS

Part Number	Description	Typical Power Ratings
79001CB	12 Volt White	125 mAmps @ 12 Volts
