

Chassis Mounting Wirewound Resistors

WH SERIES

- High quality ceramic substrate
- All welded construction
- Anodised extruded aluminium case
- High power dissipation for size
- Suitable for severe environments
- Designed for excellent thermal conductivity to heatsink

Electrical Data

Thermal impedance	°C/watt	16.0	10.0	6.0	3.5	Mounted on standard heatsink
Operating temperature range	°C	-55 to 200				

*For load at maximum rating mount on heatsink 30.5 cm x 30.5 cm x 1.5 mm

CONSTRUCTION

Cap and lead assemblies are fitted to a high purity ceramic substrate. The resistive element is wound onto the substrate and welded to the caps. The wound rod is then moulded and fitted into an aluminium housing to give optimum stability and reliability.

TERMINATIONS

Material Solder dipped, copper clad steel wire.
Strength The terminations meet the requirements of IEC 68.2.21
Solderability The terminations meet the requirements of IEC 115-1, Clause 4.17.3.2

MARKING

The resistors are legend marked with type reference, resistance value and tolerance. Values are marked in accordance with IEC 62.

SOLVENT RESISTANCE

Resistor and marking withstand all accepted industrial cleaning fluids.

: WH25 and 50	volts AC peak	2000 min	3000 min	

APPLICATION NOTES

Reference aluminium heatsink dimension

CECC 40203-006	L CM	W CM	H CM	REFERENCE AREA SQ. CM
AA, BA	15.5	10	5	410
CA, DA	18	13	5	544

Aluminium thickness 1mm

Reference chassis

Derating must be applied when resistors are mounted on a heat sink of smaller dimensions than defined in the table for reference heatsink.

It is recommended that the resistor base should be coated with silicone grease before mounting to obtain the stated operating characteristics.

The grease increases thermal conductivity to the heatsink.

After soldering care should be taken to ensure that there are no flux residues on the moulding compound, otherwise insulation resistance will be reduced.

PACKAGING

Resistors are packed in plastic bags and boxed for maximum protection.

WH50 ONLY

To load at maximum commercial rating (50W) mount on heatsink 30.5cm x 30.5cm x 1.5mm.
