

UM82C231 System/Memory Controller

Features

- CPU interface and bus control
- PC/AT bus control
- Clock generation
- Numerical processor 80287 interface
- Refresh and DMA logic
- Reset and shut down logic
- Supports 64K, 256K and 1M DRAM
- Supports up to 4MBytes of on board memory
- 136 pin flat package

Pin Configuration
