

TX1/TX2/TX3 SERIES CONNECTORS

1.27mm (.050") Contact Spacing, PCB-to-Cable Connectors

FEATURES

■ IDC Socket (TX1/TX2)

- Flat ribbon cable centers:
0.635mm (.025") for TX1
1.27mm (.050") for TX2
- TX1 socket can be terminated in "daisy-chain" style in the middle of the cable
- TX2 socket is terminated at the end of the two stacked cables
- Socket contacts have dual-contact-point tuning fork design
- All wires can be terminated in a single action (Insulation is automatically removed)

■ Pin Header With Latch (TX3)

- Available in straight and right angle through hole types
- Self-locking, self-ejecting lever for easy operation

.....

TX 1 to 3 Series connectors are two-piece PCB connectors with 1.27mm (.050") contact spacing.

They are designed for board-to-cable applications.

Configurations include IDC sockets (TX1 and TX2) for flat ribbon cable; and pin headers (TX3) with a latching mechanism.

Applications include computers, business machines, industrial control machinery, telecommunications, audiovisual appliances, measuring equipment, and applications wherever high density packaging is required.

GENERAL SPECIFICATIONS

Number of Contacts	20, 26, 30, 34, 40, 50, 60, 68, 80, 100
Contact Spacing	1.27mm (.050"), Double row
Current Rating	0.5 Amps
Operating Voltage	250 VAC r.m.s.
Dielectric Withstanding Voltage	500 VAC r.m.s. (for one minute)
Insulation Resistance	100 megohms min.
Contact Resistance	25 milliohms max.
Operating Temperature	-40°C to + 80°C
Applicable PCB Thickness	1.6mm (.063")
Applicable F.R.C.: TX1	0.635mm (.025") pitch: #30 AWG
TX2	1.27mm (.050") pitch: #28 AWG

MATERIALS AND FINISHES

TX1/TX2

Description	Materials/Finishes
Insulator	PBT (UL94V-0, Black)
Strain Relief	Glass-filled Nylon (UL94V-0, Black)
Cover	Glass-filled Nylon (UL94V-0, Black)
Contact (Note)	Beryllium Copper Connecting area: Gold plating over Nickel IDC Terminal area: Tin plating Other areas: Gold flash over Nickel

TX3

Description	Materials/Finishes
Insulator	PBT (UL94V-0, Black)
Expansion Post	Phosphor Bronze/Tin plating
Lever (TX3)	Nylon (UL94V-0, Black)
Contact (Note)	Phosphor Bronze Connecting area: Gold plating over Nickel Terminal area: Tin plating

Note: Contact finish – Gold plating on connecting area is 0.1µm (.000004") min.

Dimensions and specifications subject to change without notice.

TX1/TX2/TX3 SERIES CONNECTORS

1.27mm (.050") Contact Spacing, PCB-to-Cable Connectors

IDC TYPE SOCKET (FOR FLAT RIBBON CABLE)

TX1—For 0.635mm (.025") Pitch Cable

Note 1: For 80 and 100 position connectors, two polarizing bosses are provided. For other contact arrangements, one polarizing boss is provided at the center.

• STRAIN RELIEF: TX1-SR**

APPLICABLE CABLE WIRE (0.635mm/.025" pitch)

1. Conductor: #30 AWG wire, 7 strands of 0.102mm (.004") diameter, tin plated soft copper.
#30 AWG wire, solid of 0.254mm (.010") diameter, tin plated soft copper.
2. Insulation: Soft polyvinyl chloride (PVC) or Teflon, 0.7mm (.028") max. thickness.
