Cylinder and Pump Combination Sets

Precision matched pumps and cylinders will handle hundreds of applications.

We've taken the guesswork out of cylinders and pump selection with these 15 matched sets. They include four styles of cylinders for positive, leak resistant operation. Each is equipped with a single-

speed or two-speed hand pump for easy operation. Whatever requirements you have, the right combination is here: High, medium or low tonnage with long, medium or short stroke. Each includes the necessary fittings, coupler and 6 ft. hydraulic hose.
