Johnson & Johnson, the world's largest medical device company, has been a leader in the development of medical devices for over 100 years. The company's commitment to innovation and quality has resulted in a wide range of products that have improved the lives of millions of people. From band-aids to advanced medical equipment, Johnson & Johnson has always been at the forefront of medical technology. The company's success is a testament to its dedication to research and development, and its commitment to providing the best possible care for its patients.

H-2 1.8x5.3m/mARRAY SOCKET 5 SEQUENT

H-3 1.8x5.3m/m ARRAY SOCKET 10 SEQUENT

Technical drawing of a cathode assembly. The main view shows a side profile of a cathode with a grid. Dimensions include a total length of 44.0, a grid length of 35.0, a cathode diameter of 1.62, and a grid diameter of 1.93. Labels include 'ANODE', 'CATHODE', and '15.0 MIN'. A detail view on the right shows a cross-section of the grid with a diameter of 1.93 and a thickness of 0.835 x 2.

H-4 1.8x5.3m/mARRAY SOCKET 6 SEGUENT

Technical drawing of a cathode/anode assembly. The main view shows a series of vertical rods (cathodes) and horizontal bars (anodes) with various dimensions. Key dimensions include: 7.1, 5.15, 4.9, 62.9, 4.2, 4.9, 5.25, 150 MIN, 1.5, 2.54, 72.5, 1.92, 1.15, 0.95, 7.86, and 0.635 x 2. The drawing is labeled 'CATHODE' and 'ANODE'.
