 Deltron Part No. **593 SERIES**
**Dimensions**

**Description**

A range of professional chassis mounting sockets, designed for panel mounting via two flange fixing M3 screws. These sockets mate with all standard DIN plugs, but are specifically designed for the Ring Lock Plug Range (592 SERIES), with a quick and simple quarter-turn of the locking ring to secure the plug in place. Can be colour coded via an interchangeable plastic ring, available in six colours.
