Fact Finder on: STILLSON PIPE WRENCHES

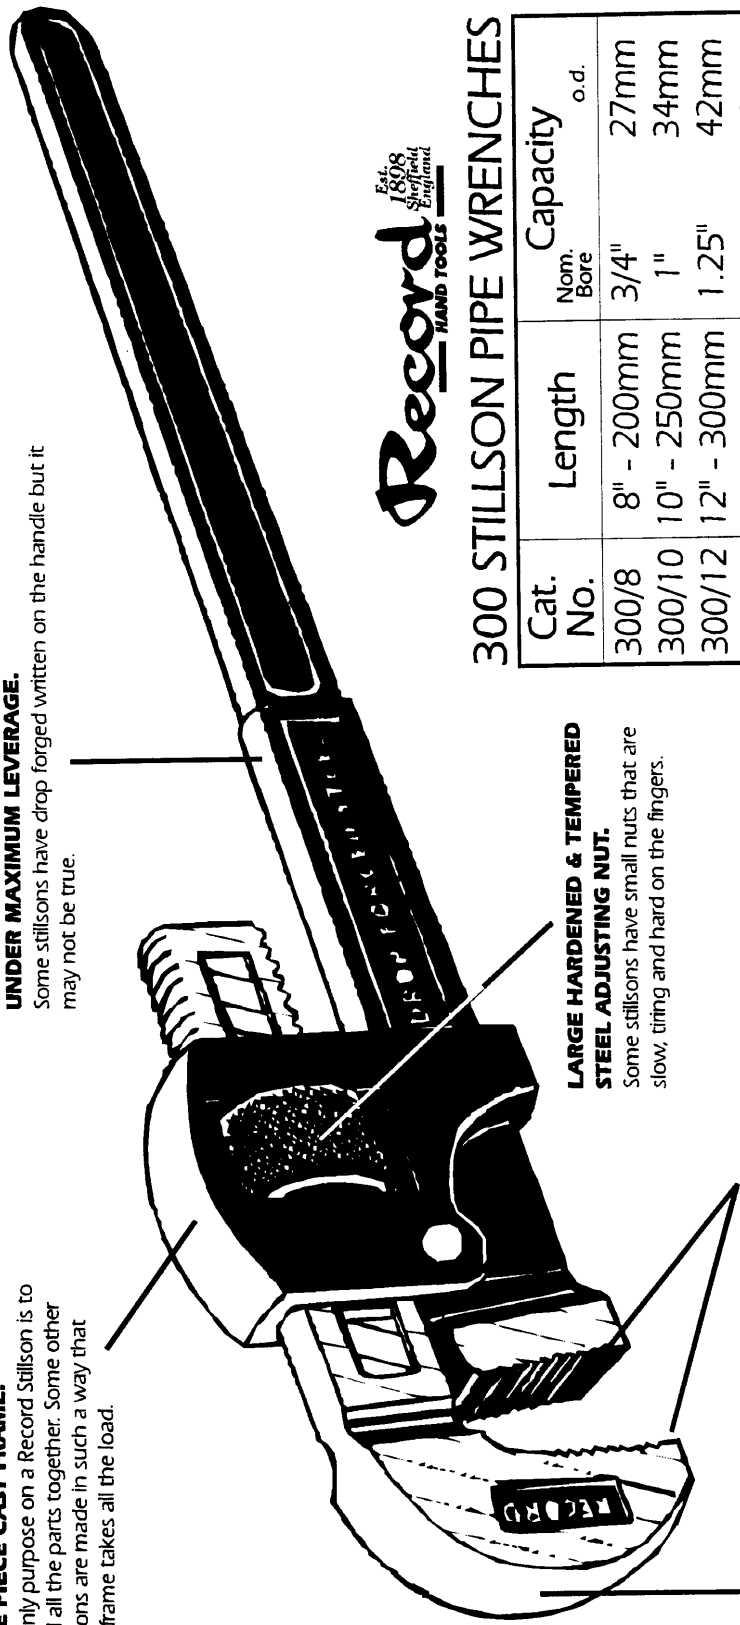

RECORD ARE THE UNITED KINGDOM'S LARGEST MANUFACTURERS OF PIPE TOOLS AND THE RECORD STILLSON WRENCH IS THE ONLY BRITISH MADE STILLSON ON THE MARKET. IT IS ALSO THE ONLY STILLSON WRENCH THAT CONFORMS TO BRITISH STANDARD BS3594 - YOUR GUARANTEE OF SAFETY, RELIABILITY AND GOOD VALUE.

ONE PIECE CAST FRAME.

Its only purpose on a Record Stillson is to hold all the parts together. Some other stillsons are made in such a way that the frame takes all the load.

DROP FORGED STEEL HANDLE FOR STRENGTH UNDER MAXIMUM LEVERAGE.

Some stillsons have drop forged written on the handle but it may not be true.

LARGE HARDENED & TEMPERED STEEL ADJUSTING NUT.

Some stillsons have small nuts that are slow, tiring and hard on the fingers.

STRONG TEETH HARDENED TO BS3594 STANDARDS ENSURE A SAFE, HARDWEARING GRIP

Some stillson jaws are poorly hardened, wearing quickly & slipping under pressure.

DROP FORGED STEEL JAWS CONFORM TO BS3594 FOR LENGTH AND WIDTH.

Some other stillson jaws are short, narrow & overstressed at maximum capacity.
