

PRODUCT GROUP 1001

CLEARTUBE

Clear P.V.C. Tubing

Construction

Cleartube is made from a clear P.V.C. material: its smooth inner surface minimizes flow-resistance whilst the P.V.C. material offers excellent resistance to abrasion and chemicals. It is available in two grades—food grade or industrial.

Applications

Cleartube is designed to provide a light weight, highly flexible tubing specifically for liquids and low-pressure gases.

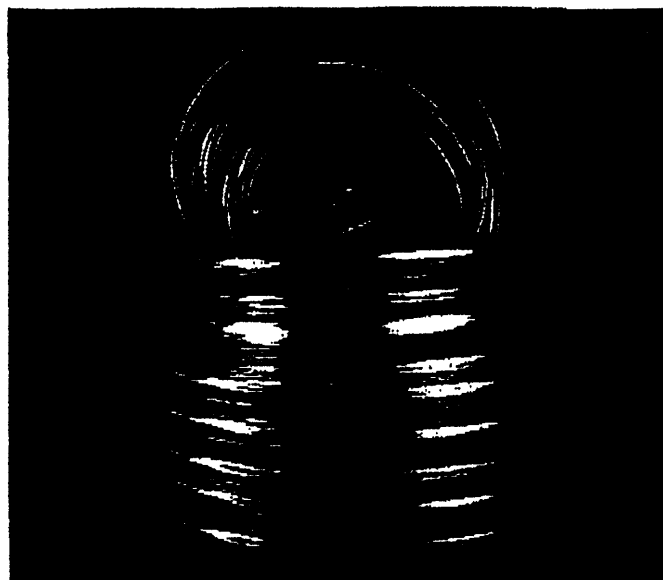

Details

Cleartube is available in four different wall thicknesses: for sizes and wall thicknesses, see table.

Length: 30m Coils (100ft)—other lengths are available to order.

Temperatures: -0°C to $+60^{\circ}\text{C}$.

Colour: Clear: other colours are available to order.

Stock Sizes and Wall Thicknesses available in various wall thicknesses available. Other sizes available to order.

Wall Thickness: 1.5mm (1/16")		
mm	ID/OD	
	mm	Inches
5	5	1/8
6	6	1/4
8	8	3/8
10	10	1/2
12	12	1/2
15	15	3/4
18	18	3/4

Wall Thickness: 3mm (1/8")		
mm	ID/OD	
	mm	Inches
5	5	1/8
6	6	1/4
8	8	3/8
10	10	1/2
12	12	1/2
15	15	3/4
18	18	3/4
22	22	1
25	25	1
28	28	1 1/8
32	32	1 1/4
38	38	1 1/2

Wall Thickness: 4.5mm (3/16")		
mm	ID/OD	
	mm	Inches
32	32	1 1/4
38	38	1 1/2
44	44	1 3/4

Wall Thickness: 6mm (1/4")		
mm	ID/OD	
	mm	Inches
50	50	2
60	60	2 1/4
75	75	3

Other sizes are available to order.
