MIDI INTERCONNECTION LEADS. 063 SERIES.

The midi cable consists of dual reussen shield, tight twisted pair of conductor wires to specification No: PS 0007 - GAC-2 (439 Series). The midi specification makes use of only three of the possible 5 pins see diagram. Pins 4 and 5 are used as conductors for midi data, and pin 2 is used to connect the cable's shield to equipment ground. Pins 1 and 3 are currently not in use, but are reserved for possible changes in future midi applications. The maximum length specified by the midi specification is 15m. Connector specification No: PS 0487 refers.

DIN PLUG CONNECTIONS
