# MONAURAL MICROPHONE AMPLIFIER

### GENERAL DESCRIPTION

The NJM2118 is a monaural microphone amplifier with current limit.

The low operating current and 3V or 5V operation are easy apply to portable items such as camcorder, microphone module and others.

The very small package of SSOP8 makes downsized PCB design.

| <br>FEATURES |  |
|--------------|--|
| realures     |  |
|              |  |

- Operating Voltage
- Low Operating Current
- Low Noise
- Bipolar Technology
- Package Outline

(30 μVrms typ.) DMP8, SSOP8

(1.0mA typ.)

 $(+2.7V \sim +5.3V)$ 

#### ■ PIN CONFIGURATION

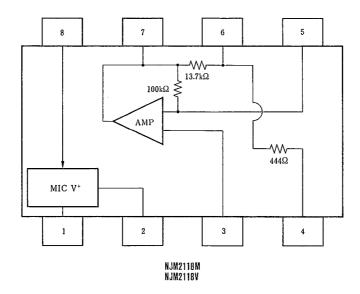

- Contraction

NJM2118M
