

M62464BFP

Dolby Pro Logic Surround Decoder
with Discrete 5.1ch Analog Input

DESCRIPTION

The M62464BFP is a Single Chip Dolby Pro Logic Surround Decoder with Discrete 5.1ch Analog Input. This LSI has all of required functions for Dolby Pro Logic Surround and also 5.1ch analog input for Dolby Digital.

Dolby and the double-D symbol are trademarks of Dolby Laboratories Licensing Corporation. San Francisco, CA 94103-4813, USA.

This device available only to licensees of Dolby Lab.

Licensing and application information may be obtained from Dolby Lab.

Outline 80P6N
0.8mm pitch QFP
(20.0mmx14.0mmx2.8mm)

FEATURES

- Includes all functions necessary for Dolby Pro Logic Surround
- Includes 5.1ch(L,R,C,SL,SR,SW) analog input for Dolby Digital
- 4ch(C,SL,SR,SW) Master Volume
- Digital Space Surround such as Disco, Hall and Live
- Pseudo Stereo Surround for Digital Space Surround
- Digital Echo for Karaoke Function Delay time 123,184msec
- 3-lines MCU control
- Current control oscillation circuit for system clock

FUNCTIONAL DESCRIPTION

FUNCTION		DESCRIPTION
1	Fundamental function for Dolby Pro Logic Surround Decoder	-Adaptive Matrix -Input Auto-Balance -Noise Sequencer -Center Mode Control ON/OFF WIDE/NORMAL/PHANTOM -Modified Dolby B type Noise Reduction -4ch(L,R,C,S), 3ch(L,R,C) Mode Switch
2	5.1ch Analog Input for Dolby Digital	L,R,C,SL,SR,SW ch Analog Input Support
3	C,SL,SR,SW ch Master Volume	0 to -79dB/1dB step, and -•
4	C,SL,SR,SW ch Trimmer	0 to -31dB/1dB step
5	RAM for Digital Delay	10K-bit RAM
6	Circuit for Space Surround and Echo	Digital delay circuit can be used for Space Surround such as a Disco, Hall or Live, and Karaoke echo.
7	Pseudo Stereo Surround	Pseudo Stereo Surround is available in Space Surround.
8	Digital Delay Time	Short Delay 15.4, 20.5, 25.6, 29.2, 51.2 msec Long Delay 123, 184 msec
9	Feedback Volume	Delay Signal Feedback Volume -3 to -21 dB/3dB step, and -•
10	Delay Effect Volume	Delay Signal Effect Volume 0 to -18 dB/3dB step, and -•
11	Bypass Switch	Bypass the decode circuit
12	Output Mute	Mute the Lch and Rch output
13	MCU Interface	Controlled by 3-lines serial data from MCU Including the Chip Address (2 bit)
14	Current control oscillation circuit	Including the oscillation circuit without external parts.

X: L or H

At Bypass or Space Surround Mode, the condition of SL-SW,SR-SW,DI-SW and BNR-SW depend on D7,D10,D11,D12 and D13 settings.

SL-SW,SR-SW : depend on D13 -----> *1

DI-SW : depend on D10 and D11----->*2

BNR-SW : depend on D7 and D12-----*3

At Space Surround Mode, the condition of L-SW and R-SW depend on D8.----->*4

MITSUBISHI SOUND PROCESSOR ICs
M62464BFP
Dolby Pro Logic Surround Decoder
with Discrete 5.1ch Analog Input

Keep safety first in your circuit designs!

●Mitsubishi Electric Corporation puts the maximum effort into making semiconductor products better and more reliable, but there is always the possibility that trouble may occur with them. Trouble with semiconductors may lead to personal injury, fire or property damage. Remember to give due consideration to safety when making your circuit designs, with appropriate measures such as (i) placement of substitutive, auxiliary circuits, (ii) use of non-flammable material or (iii) prevention against any malfunction or mishap.

Notes regarding these materials

●These materials are intended as a reference to assist our customers in the selection of the Mitsubishi semiconductor product best suited to the customer's application; they do not convey any license under any intellectual property rights, or any other rights, belonging to Mitsubishi Electric Corporation or a third party.

●Mitsubishi Electric Corporation assumes no responsibility for any damage, or infringement of any third-party's rights, originating in the use of any product data, diagrams, charts, programs, algorithms, or circuit application examples contained in these materials.

●All information contained in these materials, including product data, diagrams, charts, programs and algorithms represents information on products at the time of publication of these materials, and are subject to change by Mitsubishi Electric Corporation without notice due to product improvements or other reasons. It is therefore recommended that customers contact Mitsubishi Electric Corporation or an authorized Mitsubishi Semiconductor product distributor for the latest product information before purchasing a product listed herein. The information described here may contain technical inaccuracies or typographical errors. Mitsubishi Electric Corporation assumes no responsibility for any damage, liability, or other loss rising from these inaccuracies or errors.

Please also pay attention to information published by Mitsubishi Electric Corporation by various means, including the Mitsubishi Semiconductor home page (<http://www.mitsubishichips.com>).

●When using any or all of the information contained in these materials, including product data, diagrams, charts, programs, and algorithms, please be sure to evaluate all information as a total system before making a final decision on the applicability of the information and products. Mitsubishi Electric Corporation assumes no responsibility for any damage, liability or other loss resulting from the information contained herein.

●Mitsubishi Electric Corporation semiconductors are not designed or manufactured for use in a device or system that is used under circumstances in which human life is potentially at stake. Please contact Mitsubishi Electric Corporation or an authorized Mitsubishi Semiconductor product distributor when considering the use of a product contained herein for any specific purposes, such as apparatus or systems for transportation, vehicular, medical, aerospace, nuclear, or undersea repeater use.

●The prior written approval of Mitsubishi Electric Corporation is necessary to reprint or reproduce in whole or in part these materials.

●If these products or technologies are subject to the Japanese export control restrictions, they must be exported under a license from the Japanese government and cannot be imported into a country other than the approved destination.

Any diversion or reexport contrary to the export control laws and regulations of Japan and/or the country of destination is prohibited.

●Please contact Mitsubishi Electric Corporation or an authorized Mitsubishi Semiconductor product distributor for further details on these materials or the products contained therein.
