

Part No.

GAUG-0100I

0-100 Inch H2O Analog Pressure Gauge

Analog test gauges are convenient for field calibrations. A knife-edge pointer and mirrored band make reading the gauge very easy. An economical choice for calibrating pressure instruments.

Features

GAUG-0100I

Specifications

Vacuum Range	0 to 100"Hg (0 to 2,540 mmHG)
Accuracy	±1.5% of Full Scale
Process Connection	1/4" male NPT bottom connection
Units of Measure	In H2O
Dial Size	2.5 in (6.35 cm)
Mirror Band	No
Temperature range	-4 to 140 °F (-20 to 60 °C)
Construction	ABS Plastic, Brass, Plated Steel
Seal materials	Buna-N
Gauge type	Analog
