

G160 SOLAR PANEL

160 W EFFICIENT, RELIABLE, AND DURABLE

BENEFITS

High Efficiency

Exception panel efficiency at 14.62%

Reliable and Durable Design

High packing density and white back sheet allow for improved module efficiency.

Quality Ensured

Each module is tested to ensure field performance meets or exceeds the specifications.

FEATURES

- High Power for residential & commercial systems
- Power Tolerance $\pm 9\%$
- Limited Warranty: 25 years
- CEC Registration pending
- UL pending

The GreenCity AAC G160 Solar Panel provides an efficient, reliable, and durable alternative solution for energy saving 160 watts of solar power. This panel utilizes 72 solar cells and a white back sheet, to deliver a total panel efficiency of 14.62%.

G160

G160 SOLAR PANEL

Electrical Specification

Measured at Standard Test Conditions (STC): irradiance of 1000W/m² and 25°C cell temperature

Peak Power	Pmax	160 W
Maximum Power Voltage	Vmp	36.00 V
Rated Current	Imp	4.42 A
Open Circuit Voltage	Voc	43.56 V
Short Circuit Voltage	Isc	4.86 A
Min Bypass Diode Current		10 A
Max Series Fuse		15 A
Maximum System Voltage	IEC 61215	600 V

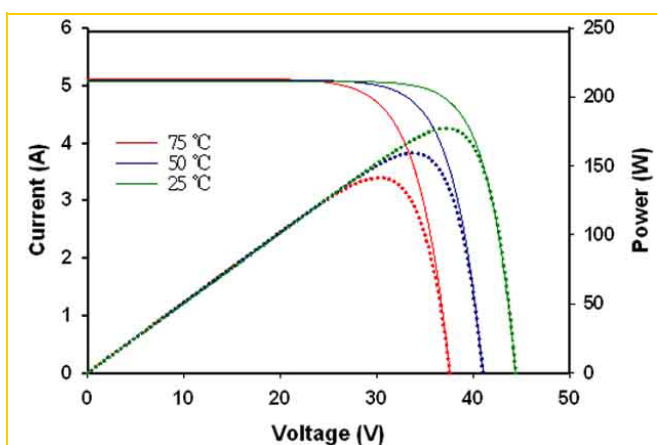

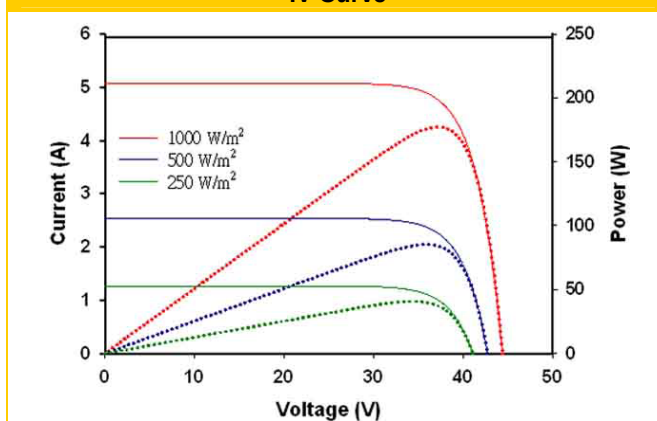

Mechanical Specification

Solar Cells	72 all back contact monocrystalline (6x12 matrix)
Front Glass	3.2mm (1/8") tempered
Back	Tedlar with EVA Encapsulation
Junction Box	U-version with 4-6 terminal connection block
Output Cable	900mm length / MultiContact connectors
Diodes	3 bypass diodes rated at 10A, 10V
Frame	Anodized Aluminum Alloy type 6063T6
Frame Color	Silver (others available)
Weight	17 kg, 37.5 lbs

Tested Operating Condition

Temperature	-40°C to 85°C (-40°F to 185°F)
Max Static Load	50 psf (2400 pascals) front and back
Front Loading	5400 pascals
Damp Heat	85% RH
Impact Resistance	Hail -25 mm (1 in.) at 23 m/s (52 mph)

IV Curve

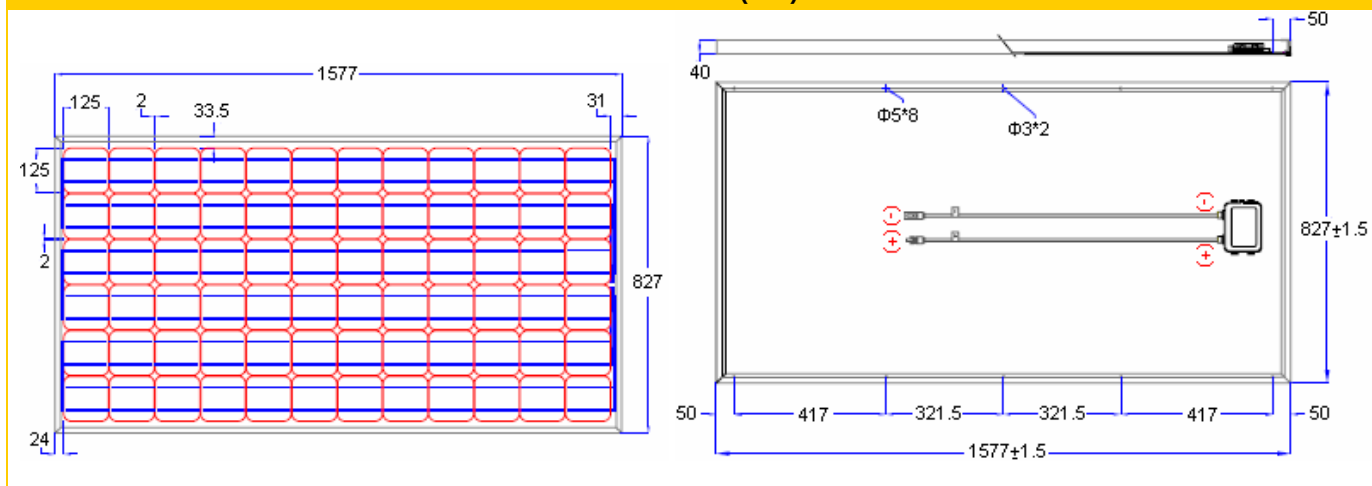

Warranty and Certifications

Warranty	25 year limited power warranty
Certifications	UL Listed 1703 (pending); IEC 61215

CAUTION: READ SAFETY & INSTALLATION INSTRUCTIONS PRIOR TO USE. Go to www.aacix.com for details
