

EPI BH38 Series

- Low loss material ensures operation in high frequency switching converters, such as Buck, Boost or as output averaging filter inductor
- Also suitable for use in high quality filter applications
- 250 KHz & 500 KHz Switching Frequency

Primary Specification

Part Number	Induct. ($\mu\text{H} \pm 15\%$) @ 0 Adc	DCR (Ω Typ.)	Induct. ($\mu\text{H} 20\%$) @ Idc	Idc (A)	Core Loss		Vt1 (V- μSec) 250 KHz	Vt2 (V- μSec) 500 KHz	Temp.Rise	
					@ Vt1 (mW)	@ Vt2 (mW)			@ Vt1 °C (Typ.)	@ Vt2 °C (Typ.)
