Dual Window Single Mode Wideband Fiber Coupler (1x3)

Oplink's 1310/1550 dual window 1x3 single mode, wideband fiber coupler is a single package, compact-sized device. It offers low insertion loss, good uniformity, very low wavelength dependent loss and low polarization sensitivity. It is an excellent solution for multi-port optical signal splitting applications.

Oplink can provide customized designs to meet specialized feature applications. Also, Oplink offers modular assemblies that integrate other components to form a full function module or subsystem.
