■ CAUTIONS

1. Over voltage

- A. Drive the product over the specified current/voltage rating per unit or per reel will damage the product.
- B. The product should not be used in reverse polarity.
- C. It is recommended to use a power supply with overload (over-voltage, short circuit and overheat) protection.

2. Storage & Handling

- A. Open the anti-electrostatic bag only a short time before use.
- B. The product should be storage in an environment with the relative humidity less than 90% RH (@30 degree C or less).
